- a. Jointing materials
- b. X-rays
- c. Non-destructive testing
- d. Pinhole testing on coating
- e. Third party inspections
- f. Any other extras are specifically excluded from this quotation.
- g. If required, a separate quotation to provide for these items will be furnished upon request.

3. Quality

- a. Should Quality Control Plans (QCP) or data packs be required, they need to be requested at the time of order.
- b. QCP's and Data Packs are available on request at an additional charge.

4. Materials used in manufacturing:

- a. Pipes: 150mm diam and smaller: SANS 62 Medium duty, except where otherwise stated.
- b. Pipes: 200mm diam and larger: SANS 719 Grade 300WA wall thickness 4.5mm, except where otherwise stated.
- c. Flanges: SANS1123 with pressure rating as required.

5. Protective Coatings:

- a. Hot dipped galvanising to SANS 763 or
- b. Two Pack Polyamide Cured Epoxy or
- c. Fusion Bonded Epoxy

6. Availability

- a. Depending on factory loading and material availability, we can typically commence delivery within 3 weeks from date of order with completion to be confirmed.
- b. Items can be prioritised according to client's requirements.
- c. Delivery to be confirmed upon placing of order.

7. Purchase Orders

- a. We reserve the right to decline accepting a purchase order.
- b. No purchase order will be accepted until a signed sales order confirmation has been received.

8. Terms and Conditions

- a. Any terms and/or conditions on a purchase order or other documentation received from a client that are inconsistent with our Standard Terms and Conditions will not be binding on us and our Terms and Conditions will prevail

9. No orders may be cancelled or will be taken back for credit.

10. Errors and Omissions Excepted
